Describe something special you took home from a tourist attraction

You should say:

What it was

When you bought it

Where you bought it

What it was like

And explain why you think it was special

Today I will talk about something special that I took home from a tourist attraction. 2 years ago, I just finished my high school study, my friends and I went to Hong Kong to have a wonderful trip. We

did lots of things there, such as enjoying the yummy seafood, visiting the Disney land, watching live concerts. For the last day before departure, I went to the duty-free shop in the airport to see if I need something. At that time, there was a big promotion storewide, almost 50% discount. I suddenly realized that there was a type of perfume which was my mother's favorite one selling as a cheap price. So I decided to buy it for my mum because her birthday was coming.

But unfortunately, I did not have enough budget to buy it, so I asked my friend if she could lend me some and she agreed. So I bought this perfume as a birthday gift, especially surprise present for my mum.

The perfume was very attractive because of its pink color as well as beautiful decorations on the bottle. In addition, the odor of the perfume was very tasty. So definitely I think my mum would like it very much.

Talking about why I think it was special was because firstly, I borrowed money from my friend and I did not want to ask money from my parents, so after purchasing, I worked as a waiter in KFC

for part-time job. Secondly, this is the first time that I buy a gift for my mum, I think she will be very pleased to see her/his son/daughter has grown up and get to know how to take care of others. That is why I think it is very special. That is all. Thanks.

Describe a kind of food that people eat during a special event.

You should say:

What it is

What event people usually eat it

How it is cooked/made

Explain why it is for the special event

Today I will talk about a kind of food that people eat during a special event. Well, it is dumplings, which is the traditional Chinese food with a long history. People from all ages like them very much.

Talking about what event people usually eat it. A decade ago, people could only eat it during some important occasions such as spring festivals or family party. But now with development of economy and technology, more and more people are getting richer and richer, so obviously people can eat dumplings at any

time at anywhere.

When it comes how it is cooked, to be honest, I am not too sure about how to cook it, but my parents tell me that it has three steps. Firstly, we need to put meat and vegetables as well as some oil and salt together. And then stir it. Secondly, we need to use the flour to warp or fold the meat and vegetables until it becomes stable. Finally, put them into the boiling water for a couple of minutes. They are ready to eat. So it is quite simple.

The reasons why it is for the special event is because firstly, dumplings represent the tradition Chinese culture, especially for family reunion. So it is very important for everyone in China. Secondly, we usually put some nuts and coins into the dumplings, and if people eat the dumplings with nuts and coins, family members or friends will give them the best wishes or some red pocket money. That is why it is special for the events. That is all. Thanks.

Actually it was because 40 years ago, our chairman Mr. Deng, announced a policy called reform and opening-up policy, that we could do business with foreign people and countries. year I am going to study abroad, by this policy I could have the opportunity to have a farther study. That is why I would like to talk about it with my friends.
