

- 雅思口语 Part 3  
考试结构
- Part 3 为分析性双向讨论。
- 该部分形式与 part 1 相同，均为对话的形式
- 时间为 4-5 分钟，考官一般会问 3-5 个问题
- 这一部分的问题是 part 2 话题的延展，难度相对较大，问题通常与社会、科技、教育与环境有关。
- Part 3 高分策略
- 长度够长
- 语言流畅
- Logical thinking (符合逻辑)
- Critical thinking (辩证阐述)
- 考生常见问题
- 1. 每个 Part 2 对应的 Part 3 中都是固定的问题吗？

不是，真实的雅思口语考试中，Part 3 的问题分多种情况，例如，有一些问题是针对考生的答案来继续追问的，还是的甚至是结合了考生在 Part 1 和 Part 2 中的答案即兴产生的。

- 2. Part 3 的问题比较难，万一因为紧张导致没听懂考官的问题，那么可以根据自己猜测的意思去回答 Part 3 的问题吗？

不要这样做，因为一旦跑题了，此题就没有“然后”了。万一在考试中没有听懂考官的问题，可以向考官再次询问，当然询问的方法有很多，例如：**Sorry, would you please rephrase it?**考官自然会用一种易懂的方式来解释这个问题。

- 3. 回答 Part 3 的问题时说几句才能得到 7.0 或以上？
- 4. 在 part 3 考试的过程中我一直回答得很流利，但为了想出一个“高大上”的单词而停顿一会儿，这种情况是否可以接受？

在 Part 3 中，不要盲目的为了迎合考官去说不够熟悉但含金量高的词汇，这往往会导致**卡壳现象**的发生，用一个“高大上”的单词而造成较长时间的停顿是得不偿失的，要首先**保持口语表达的流利度**。

- 5. 在 Part 3 考试过程中，考官一直针对我的答案提出各种各样刁钻的问题，是不是证明我的分数一定过不了 7.0 分了呢？

不一定。通常情况下，考官的问题越是刁钻，越是有深度，那么越有可能说明考生前面的表现都很不错，有冲刺更高分数的机会。把握住了这个机会，更有可能提高分数。

- Part 3 中需要注意的几点

1. 答题方式跟 part 1 的答题方式较为相似，但要注意因为 part 3 多为论述题，因此难度较大，所以答案要长一些，有原因，举例等。
2. 所用人称多为第一人称和第三人称，但如果问题中有 people 等词，要用第三人称。

Candidate 2:

Frankly speaking, it's really hard to say what the traffic will be like in the future since we are not sure what the government and citizens might do with it in the following years. However, I

guess there would be a wider variety of public transports for people to take at a reasonable price. One point to support this is that government is now working on the traffic jam. In addition to it, there might also be more private cars. My reason is that an increasing number of people will lead a richer life with the economic development. That's what I can imagine.

- **4. 真题**

What should be done in order to solve the problem of environmental pollution?

Candidate 2:

In order to solve the problem of environmental pollution, both governments and individuals need to take their own responsibility. What governments need to do most is to make sounder regulations to protect the environment. To put it a more specific way, the pollution from production in factories should be restricted rationally under the supervision of governments. What is more, people's awareness of protecting the environment should also be raised greatly. Therefore, using public transports more frequently, people can make contribution to the reduction of car emission. Only when people work together can the pollution problem be tackled effectively.

- 4. 真题:What are the advantages and disadvantages of studying abroad?

Candidate 2:

It is undeniable that a number of advantages and disadvantages coexist in terms of studying abroad. From my point of view, the most noticeable advantage is that it can expand students 'vision for the reason that students can have access to the culture different from that of their

own country. Additionally, their foreign language can also be improved. Contrarily, the most obvious disadvantage of studying abroad is that they might suffer from the cultural shock owing to the fact that cultures can never be learned in a short time. Subsequently, a second thought is needed before making a decision about whether studying abroad should be chosen.

Candidate 1:

Western education attaches more importance to the lingual output of students, and Chinese education often encourages students to think independently instead of discussing in group work

- 4. 真题:What are the differences between Chinese and Western education?

Candidate 2:

As far as I know, there are some obvious differences between Chinese and Western education. The most obvious one is that Western education attaches more importance to the lingual output of students. As we can see, presentations are more frequently made in Western classes rather than Chinese classes. In addition, Chinese education often

encourages students to think independently instead of discussing in group work which is frequently adopted in Western education. For instance, most of the exams are taken individually in China, but group defense is normally the main form of Western exams. That's what I think.
